

Roll-and segment rolling machines for screws and particular threads

RS16

Technical features: approximate values. The machine speed can change according to the material used and the type of item to be rolled. Measures in mm.

Output capacity	Diameter of screw	Length of thread	Max length of shank underhead	Standard tool sizes	Total power of motors	Net weight approx	Machine Sizes
min 70 max 500	min 6 max 16	min 20 max 100	150	roll \varnothing 127 sector \varnothing 340	HP 20	Kg. 4000	2200x1000 x1800
